

Windward Academy
FOR CAREER AND TECHNICAL EDUCATION

Learning Through Internships/Interests

from the Windward Academy for Career and Technical Education

Become an industry partner:

1

EMAIL

To support our LTI program and students, please email our team. See contact below.

2

SELECT

Work with our team to choose your commitment level and type of support that is best for you.

3

PARTICIPATE

Help train and prepare our students for their future careers and next steps in education.

Exploration

Strengthen understanding of "real-world" examples and explore different fields.

Preparation

Opportunities to develop readiness skills for employment or educational programs.

Training

Training to prepare students for entry or advancement in specific careers or degree/certificate programs.

For inquiries, please contact Rachael at support@hawaiiworkforcepipeline.com or visit www.windwardcte.org

What is my commitment as an industry partner?

CAREER GUIDANCE

Participate in one-time events such as a career fair or PBL challenges.

INTERNSHIP SITE

Work with our team to establish an internship site at your place of business.

CAREER COACH

In-person or virtual career and educational guidance to students and teaching staff.

1-2 WEEKS

Present and/or discuss industry specific information with students and/or teachers.

6-8 WEEKS

Student interns complete 4 to 8 hours per week and work on a site-specific project.

SITE MENTOR

Identify a site mentor that will be the main contact for our student and our teaching staff.

What is the benefit of supporting our students?

OUR GOAL IS TO DEFINE A WIN-WIN RELATIONSHIP

Building a homegrown workforce has many benefits including recruiting culturally and linguistically diverse candidates reflective of the community served, exposure to hard-to-fill positions, and reenergizing staff members as they act as mentors to our aspiring pre-workforce professionals.

The benefit of working with our student interns, is that we will provide basic training to the student before they join your work site team. We will partner with you to design the the fundamental training items you would like them to understand beforehand. Our goal is to prepare our student interns to become an important member of your team.
